Trusted Experts

Nulton Diagnostic & Treatment Center has been a leader in Behavioral Health Rehabilitation Services for more than 15 years. We have extensive experience in developing teams of fully trained EPSDT evaluators, as well as leading BHRS, BSC, TSS and MT teams.

Our Independent Prescribers bring this experience and expertise to your organization—and to every patient you serve. From scheduling and diagnosis to prescribing and consulting, you can expect an efficient, competent and clinically powerful team that stands ready to help you meet your practice goals.

Serving Your Community

We are licensed by the Commonwealth of Pennsylvania, and have ample experience with several MCOs, including CCBHO, CBHNP and VBH. Our Independent Prescriber services are available throughout Pennsylvania.

Getting Started is Easy

It's easy to bring Independent Prescriber services to your practice—just call us. After talking with you, we can schedule a qualified evaluator who will quickly and effectively meet your needs and those of your practice.

Contact us today at 814.361.2077 to learn more. Getting started is just a phone call away.

Nulton Diagnostic & Treatment Center

Independent Prescribers

Helping Your Practice Thrive

Accurate and reliable psychological evaluations are at the heart of your practice. Through clinical data, they provide the foundation for diagnosis and consultation, and guide a treatment plan that's right for your patient.

But sometimes, evaluation scheduling can get backed up. Once an evaluation is performed, it can take days to transcribe documents. Before you know it, weeks have passed before the evaluations get to where they need to be.

Nulton Diagnostic & Treatment Center can help. Through our Independent Prescriber program, your patients are evaluated within days. Clear and accurate documents are transcribed without delay. And evaluations are promptly distributed to 3rd party payers. All within seven days.

Guaranteed.

A Well-Trained Team

Our Independent Prescribers are backed by a team of professionals who understand the complexities of the evaluation process and the importance of timely documentation.

We know that your time is better spent focusing on clinical work, not administrative hassles. That's why we provide a range of expert services that give you the time to do what you do best—meet the clinical needs of every patient you serve. Our team includes:

- Independent licensed psychologists and board-certified psychiatrists
- Full-time schedulers who work with your practice to meet your organization's unique scheduling needs
- Full-time transcribers who clearly and accurately compose all evaluation documents
- Medical records specialists who ensure evaluations get to where they need to go in a timely manner
- Billing department that takes care of all billing issues for our team so you don't have to

Because we have a team of evaluators, you don't have to worry about your evaluator missing an appointment due to illness or other things that may come up. We can almost always get someone to your location.

Our Independent Prescribers...

- Prioritize client needs and strengths
- Possess advanced degrees in the mental and behavioral health sciences
- Are, or work under, the close supervision of fully licensed psychologists and psychiatrists
- Are trained in current diagnostic procedures and tools, including the Autism Diagnostic Observation Schedule (ADOS)
- Receive thorough training in the Best Practice expectations of all Pennsylvania managed care organizations (MCOs)
- Receive thorough training in Appendix T Medical Necessity Criteria as established by the Commonwealth of Pennsylvania

What You Can Expect

- Evaluations that conform to the Nulton Diagnostic & Treatment Center BioPsychoSocial evaluation template based on the "Hodas" Life Domains format, 3rd edition. The format has been enhanced to address issues relevant to:
 - Contemporary managed care concerns
 - Medical necessity criteria
 - Communication between treatment team members
- Objective assessments of clinical progress to help you determine appropriate treatment plans
- True independence rooted in best practice guidelines and clinical expertise, with no undue influence from 3rd party payers or providers
- Cost-effective solutions to outsourcing scheduling
- Guaranteed seven-day evaluation, documentation and distribution process
